OBJECTIVE

Enthusiastic BE Cybersecurity student seeking internship and full-time opportunities in networking and cloud-based environments. Hands-on experience in router and switch configuration, Linux systems, and Python programming, with foundational knowledge of ethical hacking and AWS. Committed to continuous learning, adaptability, and delivering secure and reliable technical solutions.

TECHNICAL SKILLS

- Networking: IP Addressing & Subnetting, Routing & Switching Configuration, VLAN, Network protocols.
- Programming: Python, HTML, CSS.
- Cybersecurity: Network Scanning, Ethical Hacking Fundamentals.
- Operating Systems: Linux, Windows.
- AWS: EC2,VPC,S3,Lambda.

PROJECT

Title: Multi-Branch Enterprise Network Design

Skills Used: VLAN, Static Routing, WAN, DHCP, ACL, Port Security, SSH, Telnet, Cisco Packet Tracer.

Tools Used: Cisco Packet Tracer

Purpose: Designed and simulated a multi-branch enterprise network with department-wise VLAN segmentation. Configured WAN connectivity using static routing, implemented inter-VLAN routing, and enhanced security using ACLs, port security, and remote device management via SSH and Telnet. The entire network topology was built and tested using Cisco Packet Tracer, simulating real-world enterprise infrastructure.

Title: Password Manager

Skills Used: Python, Tkinter, Cryptography (Fernet), JSON.

Purpose: Developed a secure password manager application to encrypt, store and retrieve user credentials. Implemented strong password generation and a user-friendly GUI for safe credential management.

TRAINING

Networking Training — Livewire, Salem

Dec 2024 -Jan 2025

Completed hands-on training in Networking (Router & Switch configuration) at Livewire Institute, Salem.

Gained practical experience in network setup, IP addressing, VLANs, routing & switching concepts.

Worked on basic network troubleshooting and configuration using real-time lab environments.

EDUCATION

Bachelor of Engineering in Cybersecurity

2023 - 2027

Mahendra Engineering College, Namakkal

CGPA (up to 5th semester): 7.80/10

Higher Secondary (Class 12)

2022 - 2023

Sri Sarada Vidyalaya Matric Hr.sec School,Ulundurpet

Percentage: 70

CERTIFICATIONS & EXTRA-CURRICULAR ACTIVITIES

- JLPT N5 (Japanese) - Bangalore Jan 2025
- Completion of Python - Great Learning Nov 2024
- NMAP Mastery:Ultimate Guide to Network Scanning - Udemy Dec 2025
- Participated in CYBER.L@NE-24 CTF Workshop - Mahendra Engineering College Mar 2024
- Attended Python for AI & ML Workshop - ABLAZE 2K24, KSR College Sep 2024
